TL10

HYDRAULIC DRIVE

THE NEW, SAFE, & INNOVATIVE LINE OF AUGERS FROM MERIDIAN

Meridian is proud to introduce the new line of TL10 Hydraulic Drive Truck Load Augers

The TL10's hydraulic drive system offers several key advantages over traditional belt-driven augers:

Fewer Moving Parts: With no large belts, pulleys, driveshaft, or gearbox, there are fewer components to wear out, replace, or maintain, keeping your operation running longer with less downtime.

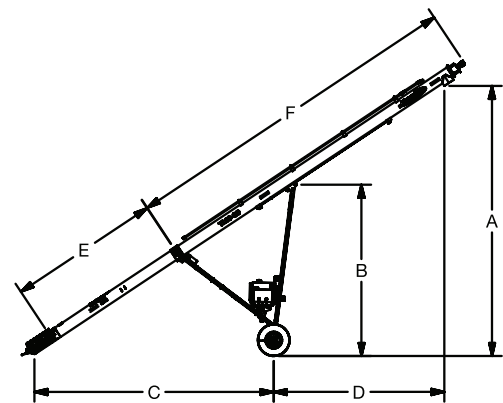

Improved Safety: Eliminating high-speed belts and exposed driveshafts significantly reduces the risk of injury during operation, making your farm a safer place to work.

The TL10 is built for performance and peace of mind. combining simplicity, reliability, and safety in one rugged unit. Powered by a 40HP Vanguard motor, it will move up to 2.25 tons/minute.

FEATURES:

- 10" Diameter Tube
- 3/16" Gauge Super-Edge™ Continuous Flighting
- 40HP Vanguard Engine
- Hydraulic Drive
- 4 Wheel Mover Kit
- Powder Coat Finish
- 2.25 Tons/Minute Capacity
